

# Will You Fly? By Gia George

## Lyrics

### VERSE 1

The road, it crumbles at your feet. Shaking legs, are they strong or weak?  
The path, it fades with every step you take. Revealing wings underneath.

### CHORUS

Will you fly? Will you fly? Will you lean into the wind and soar high?  
Soar high, soar high. Will you leap beyond what's known and take flight?  
Take flight.

### VERSE 2

When life becomes such a heavy chore, it's hard to breathe anymore.  
Just feel your wings lift you to the sky. For you are free and made of light.

### CHORUS

Will you fly? Will you fly? Will you lean into the wind and soar high?  
Soar high, soar high. Will you leap beyond what's known and take flight?  
Take flight, take flight, take flight.  
Will you face the great unknown and take flight?

### BRIDGE

Everybody's got a choice in how they live this life.  
Take it hard, take it light, or choose to fly.

Everybody's got a choice in how they live this life.  
Take it hard, take it light, or choose to fly.

Will you take flight? Will you take flight? Will you take flight?  
Will you take flight? Will you take flight? Will you take flight?

### VERSE 3

The mystery unfolds slowly. Who knows what this precious life may bring.  
When worries weigh down and cause you fear, remember you can fly from  
here.

### CHORUS

Will you fly? Will you fly? Will you lean into the wind and soar high?  
Soar high, soar high. Will you leap beyond what's known and take flight?  
Take flight, take flight, take flight.  
Will you face the great unknown and take flight?
